

Does managing the complex patient have to be complex?

Taking a broader perspective when pain isn't the only problem

Ever experienced a difficult consult and wished you never had to experience a similar one again? Ever felt perplexed, been worked up or triggered to react in a consult? Many of us in the healthcare profession can identify with such experiences yet not many of us know what best to do in such situations. Come join us in a co-learning space @ The Kempinski where you can share your experiences, hear from other professionals and find that missing link to better manage a difficult consult!
