WELCOME ADDRESS

It gives us great pleasure to welcome you to the first ever Orofacial Pain Congress jointly organized by the Pain Association of Singapore and the Singapore Dental Association.

The International Association for the Study of Pain (IASP) and promotes the Global Year Against Pain, a year-long initiative designed to raise international awareness of pain. Each year, IASP focuses on a different aspect of pain that has global implications. As this year is the Global Year Against Orofacial Pain, PAS and SDA will be organizing a one-day congress to raise awareness for this difficult to treat condition in Singapore.

We have lined up an interesting scientific programme that includes approach, diagnosis and management of various orofacial pain conditions, ranging from temporomandibular dysfunction, headaches, infections to trigeminal neuralgia. Please join us for this educational event so that we can better improve the management of all our patients.

Dr Ho Kok Yuen
President,
The Pain Association of Singapore

Dr Kuan Chee Keong
President,
Singapore Dental Association
